Diego Facchini

CEO H-Digital S.p.A.

Formello

Riepilogo

Chief Executive Officer with proven management skills and technical expertise in the IT industry by more than 18 years of multinational company experience managing People, Platform and IT Infrastructures, bringing technological innovation, process governance/improvement, cost optimization, always driven by a solid business-oriented IT Strategy.

Strong skills in decision-making and people management (especially coordinating mission-critical project), due to several years of direct experience leading big international projects with an IT background focused on process management.

Before becoming a CEO, I worked as an Executive IT Director for three large multinational companies owned by Private Equity, where I managed significant budget developing particular attention about financial management, business case development, project planning and monitoring.

My strength is based on a precise IT Strategy to support the business and a strongly oriented Vision towards future developments in the Digital World (RPA, AI, Machine Learning), of which I am personally passionate.

H-Digital concept is born with the M&A of three companies working in Digital Marketing, Software Development, Systems and Network Security with advanced know-how in the Healthcare Market, especially about Telemedicine.

The vision behind is to create a unique IT service provider that could follow customers in the full production circle, from design thinking, prototype building, software development, digital marketing, and social media communication.

H-Digital SpA it's part of Health Italia S.p.A. Group listed on the AIM Italia market.

Esperienza

H-Digital S.p.A.

Chief Executive Officer

ottobre 2019 - Present (1 anno 3 mesi)

Formello, Lazio, Italia

CEO of a new player in the IT Services launched in 6 months with the M&A and reorganization of three companies working in Digital Marketing, Software Development, Systems and Network Security with advanced know-how in the Healthcare Market, especially about Telemedicine.

The vision behind is to create a unique IT service provider that could follow customers in the full production circle, from design thinking, prototype building, software development, digital marketing, and social media communication.

H-Digital SpA it's part of Health Italia S.p.A. Group listed on the AIM Italia market.

HSE24 S.p.A.

IT Director

settembre 2015 - settembre 2019 (4 anni 1 mese)

Fiumicino, Lazio, Italia

Responsible of all Italian IT activities and local technical projects related to special International Group IT Platforms (eCommerce and iDWH) for the largest TV-Shopping groups, Home Shopping Europe GmbH, active in Germany, Austria, Switzerland, Italy and Russia.

I am leading an IT department counting 10 people, in addition to several suppliers, involved upon technology needs or project competences in the implementation of infrastructural or development projects.

Besides the management and maintenance of all the Italian technical IT infrastructure, I am responsible for:

- defining the IT strategies according to the International Board
- managing the investments budget
- supporting the business needs
- managing all corporate business platform (SAP, CRM, eCOM, DWH)

Sapienza Università di Roma

University Lecturer

settembre 2010 - agosto 2015 (5 anni)

Roma, Italia

University Lecturer in Healthcare Master of "Sapienza" about "Computer Sciences Applied to Management of Information Systems in Diagnostic Imaging" at Faculty of Medicine and Surgery of San Camillo Forlanini Hospital.

Four classes of Master holding including:

- Methodology Analysis in selecting integrated systems: Technology Assessment and System Selection His/Ris/Pacs
- Concept of Information Technology applied to Diagnostic Imaging
- Information Systems and Database
- Network Management and Security Procedures

Alliance Medical

IT Director

marzo 2008 - agosto 2015 (7 anni 6 mesi)

Monza e Brianza, Italia

Head of IT of the greatest European Healthcare company leader in diagnostic imaging services with over 2 millions exams/year (total turnover in Italy of 160M, 1300 employees).

I directly managed the IT budget and the investments planning according to the business strategies at the European level.

I have been responsible of all the corporate Information Systems, leading technical solutions development and implementation of Healthcare management platform (Ris/Pacs), corporate CRM and ERP (Sun System, Dynamics), corporate Website, Intranet portal, Collaboration Platform and IT Infrastructure projects (virtualization, private Cloud, data warehouse, BI).

Moreover, I coordinated the development team activities, aiming to realize vertical business applications and webportal enhancement (Internet/Intranet).

I have been also responsible of providing a central Helpdesk service supporting all business lines, from technical to medical issues.

M+W Group

IT Director

febbraio 2000 - marzo 2008 (8 anni 2 mesi)

Responsible for more than 8 years of the Italian IT infrastructure of a German multinational company leading global engineering and construction partner, with the following main responsibilities:

- Technical interface with the Headquarters in Stuttgart
- Network management, IT Infrastructure maintenance and development
- Cost planning related to achievement of preset goals
- Cost control/efficiency and budget management
- ERP System support and maintenance
- Negotiation and management of IT and TLC contractual agreements
- Drafting of SLA (OLA), drafting of operative and security procedures
- Technical consultancy during tender documents preparation
- Technical interface with clients and partners
- Member of M+W ETS (European Technical Software team) for test, support and drafting of corporate standard for technical software
- Helpdesk team coordination and problem solving
- Support of project teams at the clients site
- Managing privacy and security norms conforming to business standards defined in DPS documents
- Supervising and managing backup and storage systems
- Coordinating Livelink system activities, corporate collaboration and document management platform
- Coordination and development of Intranet/Internet projects

Prewell eSolutions

IT Manager

1997 - 2000 (3 anni)

Co-founder of an Internet Startup and responsible of the Company IT infrastructure implementation (Web Farm), Network Management, Helpdesk Support team.

I also leaded the Applications Development team in order to provide Internet services and solutions according to customer needs.

EIDOS

IT Consultant

1995 - 1997 (2 anni)

Within the computerization project of the Ministry for the Defense I trained all the employees of PMAL "Polo di Mantenimento Armi Leggere" in Terni up to the new IT infrastructure knowledge and management.
